DISCOVER *the* REMARKABLE NINGALOO REEF

Exmouth, Western Australia, is the gateway to Australia's incredible Ningaloo Reef (Nyinggulu), a pristine aquatic wonderland that is home to an abundance of marine life including dolphins, manta rays, turtles, humpback whales and of course the iconic whale sharks.

From March to October, the reef draws in the majestic whale sharks thanks to annual spawning of more than 200 species of coral. These gentle giants of the sea grow to between 3-8 metres long. While serene humpback whales call the reef home between July to October.

Exmouth Dive & Whalesharks Ningaloo are one of the original pioneers of providing diving tours and whale shark tours on the Ningaloo Reef. We have the experience, knowledge and reputation that will ensure that your day will forever be remembered as the experience of a lifetime.
